Complete Your Conflict of Interest (COI) Disclosure

Please note that all research personnel listed in the COMIRB Application for Protocol Review (except for the person listed as “Administrator”) needs to complete a Conflict of Interest (COI) disclosure with the UCD COI Office. Due to this federal requirement, protocols cannot be approved by COMIRB until this declaration is completed for all investigators and study personnel, including PRAs.

Please check with everyone listed on your protocol to make sure each person has completed a disclosure. Disclosures are simple to complete and only take a few minutes. Please click on the following link for instructions on how to complete a disclosure: Submitting a COI Disclosure.

For some people, the system has to be set to allow a disclosure to be made. If you receive an error message when you try to access the “External Interests” link in InfoEd (see instructions above), please contact Jordan Dietrich at Jordan.dietrich@ucdenver.edu (303-724-0150) or Jennifer Lahlou at Jennifer.Lahlou@ucdenver.edu (303-724-0034) for assistance.

Do not risk delay in approval of your next submission. Take care of all of your COI disclosures now, before you submit!
